

Foresters PlanRight Whole Life Insurance

Electronic PlanRight Producer Guide

This guide is for information purposes only and is intended to answer your questions and provide ideas to help you sell Foresters PlanRight Whole Life Insurance by e-application. Check Foresters Financial™ producer website ezbiz for other tools to support your learning needs. You must ensure that you correctly represent, to a customer or prospect, the product features based on the actual wording of the applicable certificate and riders for your state.

Products and features may not be available in all jurisdictions, availability may be modified from time to time, and certain restrictions may apply. Consult ezbiz for more detailed product information and up to date availability.

Foresters, its employees and life insurance representatives do not provide, on Foresters behalf, legal, tax, or estate planning advice. The information here reflects our understanding of current laws and regulations. Prospective purchasers should contact their own legal, tax, or estate planning advisors on their specific situations.

This document is intended for producer use only and should not be disclosed to the public. The information contained in this guide is general in nature and is subject to the applicable certificate and rider wording.

Foresters reserves the right to modify the processes and guidelines within this guide. These processes and guidelines apply to non-face-to-face sales.

Introduction

Foresters has developed a process that allows qualified producers to conduct sales of Foresters PlanRight Whole Life Insurance (PlanRight) over the phone without having to meet the Proposed Insured face-to-face. In this document we refer to the process as Electronic PlanRight (EPR).

EPR uses an on-line application, a Personal Health Interview (PHI), and an electronic signature process for signing the application and related forms, to send required disclosures and provide you and the Proposed Insured with real-time medical eligibility, an electronic signed application, and an electronic submission to Foresters.

This guide provides an overview of the EPR process. For PlanRight product information, please refer to the “PlanRight Producer Guide” and the “PlanRight Medical Reference Guide”.

How to Qualify

General Qualification

To become a qualified EPR producer, a producer must be contracted or in the process of getting contracted with Foresters. Regardless of where the producer is physically located at the time of the call, he/she must be licensed in the state of residence of the Proposed Insured.

Secondly, a producer should also be familiar with the EPR process and the PlanRight product by reviewing the following materials:

- Electronic PlanRight Producer Guide
- PlanRight E-Signature User Guide
- LiveApp User Guide
- Electronic PlanRight Sample Personal Health Interview
- Electronic PlanRight FAQ
- PlanRight Producer Guide
- PlanRight Medical Reference Guide

A producer must ensure that he/she understands the overall process, is familiar with the LiveApp application, and is familiar with the PlanRight product.

The producer should ensure that any client personal information downloaded and saved to their device is securely stored to protect against unauthorized access.

Before You Start Selling

The following are some key differences between selling PlanRight in a face-to-face environment and using the EPR process that must be adhered to.

Proposed Insured

The Proposed Insured must also be the Owner and Payer of the PlanRight certificate; third party owners and/or payers are not allowed on EPR applications.

The solicitation and sale must be completed in the Proposed Insured's resident state, and can only occur in states where EPR is approved for use. The Proposed Insured must be in their state of residence during the PHI and signature process.

Replacements

While the Proposed Insured is allowed to have life insurance or annuities inforce, an EPR application cannot replace, reduce coverage or modify premiums paid for any existing life or annuities inforce. Replacements are therefore not offered on any applications submitted through the EPR process and a paper application would be the alternative option.

In addition, there must be no intention for the Proposed Insured to give the right, title, or an interest (including possible assignment) to someone if a certificate is issued.

Due to state replacement regulations in AL, AK, AZ, CO, CT, HI, IA, KY, LA, ME, MD, MS, MO, MT, NE, NH, NJ, NM, NC, OH, OR, RI, SC, SD, TX, UT, VT, VA, WV and WI, if the Proposed Insured has existing life insurance or annuities inforce, even if there is no intent to replace coverage it's still considered a replacement. You will need to complete the Important Notice: Replacement of Life Insurance or Annuities in LiveApp and both you and the Proposed Insured will need to electronically sign the form.

Situation	Exception
Does the Proposed Insured have any existing life insurance or annuities inforce?	Allowed, but requires completion of the Important Notice: Replacement of Life Insurance Annuities in: AL, AK, AZ, CO, CT, HI, IA, KY, LA, ME, MD, MS, MO, MT, NE, NH, NJ, NM, NC, OH, OR, RI, SC, SD, TX, UT, VT, VA, WV, WI
Will insurance applied for in the application replace, reduce coverage or modify premiums paid for any existing life insurance or an annuity inforce?	Not allowed in any state.
Does the Proposed Insured have the intention to give the right, title, or an interest (including possible assignment) to someone if a certificate is issued?	Not allowed in any state.

Payer and Premium Payments

The Proposed Insured must be the payer of the PlanRight certificate. Premium payments are only available through monthly pre-authorized checking (PAC); the Proposed Insured will need to be the account holder of a checking or savings account from which monthly premiums can be drawn.

EPR Technical Requirements

It is recommended that producers using LiveApp have a computer, laptop, or tablet with a high-speed internet connection, and are using the most current versions of either Google Chrome or Safari.

Please note that LiveApp is not optimized for other browsers such as Internet Explorer, Microsoft Edge, or Firefox and therefore may not function properly. LiveApp does not function on a cellphone or smartphone. Technical support is not available if using LiveApp in alternate browsers or a cellphone or smartphone.

If your browser does not meet the minimum requirements, the LiveApp website will advise you of what is required.

Producers must also have the capability to host a three-way conference call through their phone; you will be required to conference in Apptical to complete the PHI with the Proposed Insured.

LiveApp

LiveApp is a simple, easy to use 'step-by-step' on-line application that you complete with the Proposed Insured prior to connecting with Apptical for the teleinterview. LiveApp includes a built-in rate calculator which can be accessed at any time during the application process. LiveApp is also designed to ensure that all questions and information are completed in full and that the application is completed In Good Order (IGO).

Please refer to the "LiveApp User Guide" for instructions on how to use LiveApp.

The Application

The EPR application is the same as the paper PlanRight application, however the Proposed Insured, Payer, and Owner must all be the same person.

In LiveApp, you will be required to e-mail a new form called "PlanRight Medical Questions" to the Proposed Insured. This form contains all of the medical questions on the PlanRight application. The Proposed Insured will need this form in front of them during the Personal Health Interview (PHI) so that they can verify their answers to the medical questions.

The e-mail will contain a link to Apptical which will allow the Proposed Insured to open the PDF of the PlanRight Medical Questions form. The e-mail will also have a code that the Proposed Insured will need to provide you, to verify that they have received the PlanRight Medical Questions form. See the LiveApp User Guide for more details.

General Instructions

Be sure that you use the correct state version of the application, based upon the Proposed Insured's resident state. As a reminder, the Proposed Insured must be in their state of residence at the time of the PHI. You must also be licensed in the state that the solicitation and sale take place. The following is meant to provide general information on the application. Please note that to help facilitate completing the application In Good Order, the application sections in LiveApp will be in a different order. The Proposed Insured will be sent the filed and approved application form for review and e-signature.

Section 1: Proposed Insured

PlanRight uses age last birthday. Verify that the Proposed Insured's height and weight are recorded on the application and are within PlanRight's guidelines. Acceptable documents for verifying the identity of the Proposed Insured includes a driver's license, government issued photo ID card or passport.

Section 2: Medical Questions

The coverage applied for is based on the answers to questions 1-6, 7-12, and 13-15 and the outcome of the Point-of-Sale process.

Be sure to ask all the medical questions in their entirety (refer to the "PlanRight Medical Reference Guide" for explanations of the various conditions listed in the application).

Section 3: Insurance Applied For

The certificate type (Preferred, Standard, Basic) being applied for, the insurance amount, and premium amount are generated through the rate calculator. The Accidental Death Rider (ADR) is available for PlanRight Preferred only and can be selected in the rate calculator.

Section 4: Automatic Premium Loan

Select whether the Proposed Insured wants the Automatic Premium Loan provision.

Section 5: Payment Information

The Proposed Insured must be the payer of the PlanRight certificate. Premium payments are only available through monthly pre-authorized checking (PAC). If a specific draft date has been selected, please ensure that the day and month have been specified. Draft dates cannot be greater than 45 days from the date of the Apptical interview.

Section 6: Other Insurance and Financial Questions

Producers must comply with any replacement laws and regulations and are expected to offer suitable products and services to meet the Proposed Insured's needs.

While the Proposed Insured is allowed to have life insurance or annuities inforce, an EPR application cannot replace, reduce coverage or modify premiums paid for any existing life or annuities inforce.

Replacements are therefore not offered on any applications submitted through the EPR process and a paper application would be the alternative option.

In addition, there must be no intention for the Proposed Insured to give the right, title, or an interest (including possible assignment) to someone if a certificate is issued.

Due to state replacement regulations in AL, AK, AZ, CO, CT, HI, IA, KY, LA, ME, MD, MS, MO, MT, NE, NH, NJ, NM, NC, OH, OR, RI, SC, SD, TX, UT, VT, VA, WV and WI, if the Proposed Insured has existing life insurance or annuities in force, even if there is no intent to replace coverage it's still considered a replacement. You will need to complete the Important Notice: Replacement of Life Insurance or Annuities in LiveApp and both you and the Proposed Insured will need to electronically sign the form.

Section 7: Owner Information

This section is not available for completion as EPR requires that the Proposed Insured is also the Owner.

Section 8: Secondary Addressee

Fill in this section if the Proposed Insured would like to designate another person to receive notification if there is a possible lapse in coverage.

Section 9: Beneficiary Information

When Primary or Contingent beneficiaries are named, the relationship to the Proposed Insured must be listed. If a primary or contingent beneficiary is to be irrevocable, be sure to indicate "irrevocable" for that beneficiary's name.

Beneficiaries must meet the insurable interest requirements under state insurance law. In addition, to comply with legislation relating to fraternal benefit societies, benefits must be paid to the member (life insured) or dependents of the member either directly or indirectly. Note that neither funeral homes nor funeral directors are acceptable beneficiary designations.

For additional information, please refer to Foresters "Beneficiary 101 Guide", available on our producer website.

Section 10: Additional Information

This section should only be completed if the Proposed Insured is taking specific dual use medications. Please refer to the "PlanRight Medical Reference Guide" for details. Please note that this section is not to be used to provide information other than for dual use medications.

Section 11 and 12: Agreements & Authorization to Obtain and Disclose Information

Although there are no questions in these sections, the agreements and authorization sections will be in the application for the Proposed Insured's review before electronically signing the application.

Section 13: Signature Section

Once the PHI has been completed, the Proposed Insured will be sent an e-mail with instructions on how to electronically sign the application. Only the Proposed Insured can apply their electronic signature to the application. Signing with initials is not acceptable. Signatures by Powers of Attorney are also not acceptable.

Section 14: Producer Certification

The producer must answer the replacement question in this section. Once the PHI has been completed and the Proposed Insured has electronically signed the application, the producer will receive an e-mail with instructions on how to electronically sign the Producer Certification, along with any other forms that require the producer's signature.

Other Forms

Notices Page and Acknowledgement of First Premium

The Notices page provides information about privacy, the underwriting process and MIB, Inc. (MIB). This form will be included in both the initial application package and the final application package sent to the Proposed Insured.

The Acknowledgement of First Premium will be populated through LiveApp and electronically signed by the producer; the signed form will be included in the final application package that is sent to the Proposed Insured. Note that on PlanRight there is no temporary insurance coverage.

Accelerated Death Benefit Rider (For Terminal Illness) Disclosure

For PlanRight Preferred and Standard, it's a regulatory requirement that an ABR disclosure must be given to all Owners. This disclosure will be left with the Proposed Insured (who is also the Owner) in the final application package.

Producer Report

The Producer Report must be completed in LiveApp and will automatically be submitted to Foresters. Remember to include any special instructions in the Remarks section.

Split commissions between two producers are acceptable from 1% to 99%. To request a producer split, complete question #12 on the Producer Report.

Please do not use the Producer Report to provide medical information. If the Proposed Insured is taking a dual use medication, please complete Section 10 "Additional Information" on the application.

Contingent Owner/Other Payer I.D. Form

This form is not available as EPR does not allow 3rd party payers.

Replacement Forms

You will need to complete the Important Notice: Replacement of Life Insurance or Annuities in LiveApp in AL, AK, AZ, CO, CT, HI, IA, KY, LA, ME, MD, MS, MO, MT, NE, NH, NJ, NM, NC, OH, OR, RI, SC, SD, TX, UT, VT, VA, WV and WI, if the Proposed Insured has existing life insurance or annuities in force, even if there is no intent to replace coverage.

If there is an intent to replace existing coverage in any state, you must complete a face-to-face paper PlanRight application.

Point-of-Sale Forms and Other Disclosure Forms

Some states have additional point-of-sale forms and other disclosure forms. Any state specific forms or disclosures will already be included in the EPR process for that state.

The Point-of-Sale Process

Introduction

The Point-of-Sale (POS) process for EPR is similar to our regular POS process for a paper PlanRight application, except that there are some additional verifications that the Proposed Insured must answer.

For more details on the overall POS process (such as MIB Check, Milliman, eligibility results, etc.), please refer to the “PlanRight Producer Guide”.

Personal Health Interview

The personal health interview (PHI) is conducted by Apptical on behalf of Foresters. For EPR, PHIs are only offered in English; PHIs in Spanish or other language translations are currently not available. The PHI must be conducted within Apptical’s operating hours. Apptical’s hours of operation are:

- 8:30 am to 2:00 am ET, Monday to Friday
- 10:00 am to 10:00 pm ET, Saturday & Sunday

You must also remain on the line for the entire PHI. The following is a general overview of what to expect during the EPR PHI:

1. The interviewer will introduce themselves and ask what product the Proposed Insured is applying for (indicate Electronic PlanRight for Preferred, Standard, or Basic). You will be asked to provide the “PHI Number” (from LiveApp) for the specific application involved. The interviewer will ask which medical questions (if any) the Proposed Insured answered “yes” to, the state the product is being sold in, and the telephone number you’re calling from, along with your name and your Foresters producer number to validate your POS eligibility. You will be informed that the call is being recorded and you will need to agree to the recording.
2. The interviewer will inform the Proposed Insured that the call is being recorded and get their agreement to the recording.
3. The interviewer will provide some information to the Proposed Insured about the PHI process, get their agreement to using electronic signatures, verify the e-mail address they provided in the application and confirm it’s the Proposed Insured’s personal e-mail address.
4. The interviewer will then verify some of the Proposed Insured’s personal information, and will obtain the Proposed Insured’s authorization to run the prescription history and MIB check.

5. The interviewer will then confirm with the Proposed Insured that they received and have the PlanRight Medical Questions form in front of them. They will also need to confirm the form number in the bottom right hand corner of the form.
6. The Interviewer will then confirm which of medical questions 1-6, 7-12, and 13-15 were answered "no". The interviewer will also confirm any "yes" answers in those sections (if applicable). The interviewer will not read out each question.
7. During this time, the MIB check and prescription history check will be run, and the Proposed Insured's height and weight will be checked against the build chart.
8. Once completed the interviewer will give you the medical eligibility results of the case. If there is a step-down in medical eligibility due to a specific drug(s), the interviewer will provide you with the name of the drug(s). If you and the Proposed Insured determine that the drug is a dual use drug, you can submit an e-mail to Foresters providing the details. If approved by Underwriting, the application would be amended. Alternately we would accept a signed and dated letter from the Proposed Insured or their physician. Please note that while the information will be reviewed, there will be some situations where we may still require a letter from the physician.
9. Based upon the medical eligibility results, the interviewer can recalculate the premium and face amount if needed.

If a change is required during the PHI, Apptical can make those changes on behalf of you and the Proposed Insured. Changes may include changes to a medical question, benefit applied for, insurance premium, face amount changes, or changes to the Proposed Insured's personal data (e.g. DOB).

Once a change has been made, the application will automatically be updated prior to the electronic signature process. Once the PHI is completed and the electronic signature process has started, there is no option to make changes to the application.

The E-Signature Process

Submitting the Application to Foresters

Once the interview has been completed and both you and the Proposed Insured have signed the application, Apptical will submit the electronically signed application, along with the Producer Report, and any other signed forms and/or disclosures, to Foresters for processing. Please see the PlanRight E-signature Guide for details on the e-signature process.

Other Information

Please review the PlanRight Producer Guide for the following information:

- Important dates (e.g. commission cut-off date, certificate effective date, etc.)
- General information (e.g. canceled applications, reinstatements, etc.)
- Sales support
- Access to your business and inquiries
- Marketing supplies

Foresters PlanRight Whole Life Insurance

Producer Guide

This guide is for information purposes only and is intended to answer your questions and provide ideas to help you sell Foresters PlanRight Whole Life Insurance. Check Foresters Financial™ producer website ezbiz for other tools to support your learning needs. You must ensure that you correctly represent, to a customer or prospect, the product features based on the actual wording of the applicable certificate and riders for your state.

Products and features may not be available in all jurisdictions, availability may be modified from time to time, and certain restrictions may apply. Consult ezbiz for more detailed product information and up to date availability.

Foresters, its employees and life insurance representatives do not provide, on Foresters behalf, legal, tax, or estate planning advice. The information here reflects our understanding of current laws and regulations. Prospective purchasers should contact their own legal, tax, or estate planning advisors on their specific situations.

This document is intended for producer use only and should not be disclosed to the public. The information contained in this guide is general in nature and is subject to the applicable certificate and rider wording.

Foresters reserves the right to modify the processes and guidelines within this guide. These processes and guidelines apply to face-to-face sales.

¹ For PlanRight Basic, the death benefit is based on 100% of the face amount (see footnote #2) in the event of accidental death during the first two years. Interest is compounded annually and is accrued on a daily basis from certificate issue date to date of death.

² Unearned premium will be added and debt subtracted from the applicable amount in calculating the death benefit. Debt includes each outstanding certificate loan amount and unpaid premium owed during the grace period before lapse.

³ Certain member benefits are only available to members insured under a certificate with a face amount of \$10,000 or more. Member benefits are non-contractual and are subject to benefit specific eligibility requirements and limitations.

⁴ Ratings do not apply on the PlanRight plans.

⁵ Death benefit payable is net of the outstanding certificate loan amount(s) (including accrued interest).

Product Description

Foresters PlanRight Whole Life Insurance (PlanRight) is a permanent, whole life product which provides a guaranteed, level premium and makes use of a simplified application and underwriting process.

PlanRight is designed to help cover final expenses such as the costs associated with funeral and burial expenses, probate fees, or other financial obligations that an Applicant's family may face in the event of death.

PlanRight offers three plan options:

- PlanRight Preferred: the death benefit is based on⁶ 100% of the face amount in effect and has the lowest premium of the three plans.
- PlanRight Standard: the death benefit is based on⁶ 100% of the face amount in effect.
- PlanRight Basic: has a limited death benefit in the first two years which is based on⁶ the return of premiums paid plus 10% interest⁷. From year three onward, the death benefit is based on⁶ 100% of the face amount in effect.

How to Qualify

General Qualification

To qualify for PlanRight, the Proposed Insured must:

- be able to answer 'no' to Medical Questions 1-6 on the application
- be within height and weight guidelines
- not be taking any 'not eligible' prescription drugs as listed in the "PlanRight Medical Reference Guide"
- have a social security number
- be mentally competent (i.e. able to answer the application questions on their own)
- have the legal capacity to conduct their own affairs
- be able to complete the Personal History Interview (PHI) by telephone
- not have been previously declined for any other Foresters product

Hearing or speech impaired clients are eligible for PlanRight if using a teletypewriter (TTY) or a Video Relay Service (VRS) to conduct the interview. See "General Information" for additional details on using VRS.

When screening a Proposed Insured, observe whether there is a wheelchair or scooter, oxygen tank, assisted living, or other obvious indicators of health issues that could disqualify the Proposed Insured from coverage.

PlanRight does not offer any preliminary underwriting inquiries or risk assessments.

⁶ Unearned premium will be added and debt subtracted from the applicable amount in calculating the death benefit. Debt includes each outstanding certificate loan amount and unpaid premium owed during the grace period before lapse.

⁷ Interest is compounded annually and is accrued on a daily basis from certificate issue date to date of death.

Qualifying for Preferred, Standard, or Basic Coverage

The level of coverage the Proposed Insured may qualify for depends in part on the answers to the medical questions in the application:

- If there is a “yes” answer in questions 1-6 of the Medical Questions, the Proposed Insured will not qualify to apply for a PlanRight benefit; do not continue with the application.
- If all questions 1-6 are all answered no, but there is a “yes” answer in questions 7-12 of the Medical Questions, the Proposed Insured may be eligible to apply for the Basic death benefit.
- If all Medical Questions from 1-6 and from 7-12 are answered no, but there is a “yes” answer in questions 13-15 of the Medical Questions, the Proposed Insured may be eligible to apply for the Standard death benefit.
- If all the Medical Questions are answered “no”, the Proposed Insured may be eligible to apply for the Preferred death benefit.

Riders and Death Benefit

Accidental Death Rider

Available On	PlanRight Preferred only
Issue Ages	50-80
Description	Provides additional coverage in the event of an accidental death, caused by an accidental bodily injury, and death occurs within 180 days of the injury.
Issue Amount	Minimum issue amount is \$5,000. Maximum issue amount is 100% of the face amount (subject to a maximum of \$300,000 across all Foresters certificates).
Expiry Date	The certificate anniversary on which the insured is age 121.

Common Carrier Accidental Death Rider

Available On	All PlanRight plans
Issue Ages	50-85
Description	This rider, automatically included on all eligible certificates (cost is included in basic certificate premium), provides additional coverage if the Insured dies within 180 days of an accidental bodily injury that occurred while riding as a fare paying passenger on a common carrier.
Issue Amount	Two times the face amount (death benefit is subject to a maximum of \$300,000 across all Foresters accidental death coverage).
Expiry Date	The certificate anniversary on which the insured is age 121.

Family Health Benefit Rider

Available On	All PlanRight plans
Issue Ages	50-85
Description	This rider, automatically included on all eligible certificates (cost is included in basic certificate premium), provides benefits for qualified health situations for the insured and their immediate family of up to \$650 per person per incident with a lifetime family maximum of \$5,000, who have had to be transferred to a hospital in the Continental United States, Alaska or Hawaii by ambulance, visit the emergency room or stay in hospital as a result of the following: Earthquake, Hurricane, Tornado, Tsunami, Typhoon, Struck by lightning, Volcanic eruption.
Qualified Event and Amount	<ul style="list-style-type: none"> • Ambulance Transportation: \$50 • Hospital Emergency Room Examination: \$100 • Hospital Stay: \$100/day (up to 5 days)
Maximum Benefit Amount	\$650 per person, per incident with a lifetime family maximum of \$5,000.
Expiry Date	The certificate anniversary on which the insured is age 121.

Accelerated Death Benefit Rider (For Terminal Illness)

Available On	PlanRight Preferred and Standard
Issue Ages	50-85
Description	This rider, included with eligible certificates at no additional premium, provides the owner an option of accelerating a portion of the eligible death benefit and receiving an accelerated death benefit payment if the Insured has a non-correctable illness or physical condition which is reasonably expected to result in death within 12 months of diagnosis.
Minimum Acceleration Amount	\$2,000
Maximum Acceleration Amount	Terminal Illness <ul style="list-style-type: none"> 95% of the eligible death benefit on the effective date of the accelerated payment due to terminal illness One terminal illness payment is allowed – the rider will terminate after an ABR terminal illness payment
Minimum Residual Base Face Amount	\$2,000
Payment Amount	If applicable, the payment will be <u>reduced</u> by any loan repayment, prorated based on the acceleration amount
Effect of Acceleration	ABR claim payment will reduce the face amount, cash value and loan amount (if any). The reduction to the face amount could be by more than the payment amount. Any outstanding certificate loan will be reduced by the loan repayment amount that was subtracted from the acceleration amount. Receipt of an accelerated death benefit payment is intended to qualify for favorable tax treatment under the IRC. However, depending on individual circumstances or changes to the IRC, the payment may be taxable, and may affect eligibility for public assistance or benefits. Your client should consult a qualified tax advisor and applicable government agency before receiving an accelerated death benefit payment.
Expiry Date	The certificate anniversary on which the insured is age 121.

Death Benefit Examples

The following are examples of a \$15,000 face amount with the Accidental Death Rider (ADR) and the Common Carrier Accidental Death Rider (CCADR). These examples assume there is no other existing accidental death coverage under another Foresters certificate.

Preferred And Standard	1. If cause of death is non-accidental: Yr 1+ = \$15K
	2. If cause of death is accidental and CCADR does not apply, but with ADR at an additional cost: \$15K + \$15K (ADR) = \$30K
	3. If cause of death is accidental and CCADR applies, with no ADR: \$15K + 2 X \$15K (CCADR) = \$45K
	4. If cause of death is accidental and CCADR applies with ADR at an additional cost: \$15K + \$15K (ADR) + 2 X \$15K (CCADR) = \$60K

Basic ⁸	1. If cause of death is non-accidental: Yr 1 ⁹ 1.10 X \$700 = \$770 Yr 2 ⁹ 1.10 X (\$770 + \$700) = \$1,617 Yr 3+ = \$15K
	2. If cause of death is accidental and CCADR does not apply: Yr 1 ¹⁰ = \$15K Yr 2 ¹¹ = \$15K Yr 3+ = \$15K
	3. If cause of death is accidental and CCADR applies: Yr 1 ¹¹ \$15K + 2 X \$15K (CCADR) = \$45K Yr 2 ¹¹ \$15K + 2 X \$15K (CCADR) = \$45K Yr 3+ \$15K + 2 X \$15K (CCADR) = \$45K

Minimum and Maximum Face Amounts

The minimum face amount for all plans is \$5,000. The maximum face amount is:

PlanRight Preferred:

Ages 50-80: \$35,000
Ages 81-85: \$15,000

PlanRight Standard:

Ages 50-80: \$20,000
Ages 81-85: \$10,000

PlanRight Basic:

Ages 50-80: \$15,000
Ages 81-85: N/A

⁸ Assumes premium of \$700 is paid annually and that death occurs at the end of the year.

⁹ Interest is compounded annually and is accrued on a daily basis from certificate issue date to date of death.

¹⁰ The death benefit is based on 100% of the face amount in years 1 and 2 in the event of accidental death.

Premiums

Premium rates vary by issue age, gender and Tobacco use. Non-Tobacco is defined as no cigarettes or any other form of tobacco or nicotine in the last 12 months. Premiums are payable during the Proposed Insured's life to age 121 and are based on the Proposed Insured's age last birthday. PlanRight is a non-illustrated product. A variety of premium calculators (including desktop and mobile) are available through Foresters ezbiz producer website (foresters.com).

Minimum Premiums and Modal Factors

Mode	Minimum Premium	Modal Factor
Monthly PAC	\$10	0.0875
Direct Quarterly	\$30	0.26
Direct Semi-Annually	\$50	0.51
Direct Annually	\$100	1.0

The Application

General Instructions

Be sure that you use the correct state version of the application, based upon the state in which the Proposed Insured (or the Owner, if other than the Proposed Insured) signs the application. You must also be licensed in the state where the solicitation and sale takes place.

A producer is required to interview the Proposed Insured (and Owner, if other than the Proposed Insured) in person and witness their signature(s). Sales by internet or mail are prohibited.

Section 1: Proposed Insured

PlanRight uses age last birthday. Verify that the Proposed Insured's height and weight is recorded on the application and that the Proposed Insured's height and weight are within guidelines. Acceptable documents for verifying the identity of the Proposed Insured include a driver's license, government issued photo ID card or passport.

Section 2: Medical Questions

The coverage applied for is determined based on the answers to the questions 1-6, 7-12, and 13-15 and the outcome of the Point-of-Sale process.

Be sure to ask all the medical questions in their entirety (refer to the "PlanRight Medical Reference Guide" for explanations of the various conditions listed in the application).

Section 3: Insurance Applied For

Select the certificate type being applied for and enter the insurance amount and premium amount. The Accidental Death Rider (ADR) is available for PlanRight Preferred only. If selecting ADR, be sure to indicate the amount of coverage; the ADR premium should be included in the premium amount.

Section 4: Automatic Premium Loan

Select whether the Proposed Owner wants the Automatic Premium Loan provision.

Section 5: Payment Information

Payment information must be completed in full. If a specific draft date has been selected, please ensure that the day has been specified, either 1st through to the 28th, or the 1st to the 4th day of the week (Monday to Friday). Draft dates cannot be greater than 45 days from the date of the Appical interview.

If paying either the initial payment or subsequent payments by pre-authorized check (PAC), then the PAC Banking Information should be completed or a void check attached. If first premium is being paid by check, then PAC banking information will be taken from that check. For PAC, the authorization must be signed by the payer(s). Please note that the PAC authorization is effective immediately. If a preferred draft date is selected, the first premium will be drafted based upon the draft date selected. First Premium on PAC (FPOP) is the only payment option for applications submitted by either SecureDocs or fax.

Payments by check must be made payable to Foresters and dated no later than the date the application was signed. Cash, post-dated checks, money orders, cashier's checks, or a check from the producer's personal/business account are not acceptable and will be returned to the insurance unprocessed.

The only instance where we will accept a check from the producer's personal/business account is if the Proposed Insured is the producer or a member of the producer's family.

Check conversion is available if the first premium payment is being made by check, provided that subsequent payments are being made by PAC. Check conversion allows a check to be submitted electronically by fax of SecureDocs without requiring the original paper check to be submitted.

If using the check conversion process, you must also photocopy the completed signed check for the first premium and include this with your electronic submission. Once you receive confirmation that the application has been received, the original check must be destroyed.

If the payer is someone other than the Proposed Insured or the Owner, then a Contingent Owner/ Other Payer I.D. Form must also be completed and submitted with the application.

Section 6: Other Insurance and Financial Questions

Producers must comply with any replacement laws and regulations and are expected to offer suitable products and services to meet the Owner's needs. Indicate whether there is any inforce life insurance or annuities and whether any coverage will be replaced. Inforce life insurance or annuities include all certificates and/or policies inforce (including Foresters certificates which are inforce or lapse pending, or have been cancelled or lapsed during the past 13 months), as well as any group coverage.

Section 7: Owner Information

Fill out the Owner Information only if the Proposed Insured is not the Owner. The Owner may be a third party (e.g. business, trust), subject to underwriting, fraternal, and state requirements.

Section 8: Secondary Addressee

Fill in this section if the Owner would like to designate another person to receive notification if there is a possible lapse in coverage.

Section 9: Beneficiary Information

When Primary or Contingent beneficiaries are named, the relationship to the Proposed Insured must be listed. If a primary or contingent beneficiary is to be irrevocable, be sure to insert the word "irrevocable" beside that beneficiary's name.

Beneficiaries must meet the insurable interest requirements under state insurance law. In addition, to comply with legislation relating to fraternal societies, benefits must be paid to the member (life insured) or dependents of the member either directly or indirectly. Note that neither funeral homes nor funeral directors are acceptable beneficiary designations.

For additional information, please refer to Foresters "Beneficiary 101 Guide", available on our producer website.

Section 10: Additional Information

This section should only be completed if the Proposed Insured is taking specific dual use medications. Please refer to the "PlanRight Medical Reference Guide" for details.

Please note that this section is not to be used to provide information other than for dual use medications.

Section 11 and 12: Agreements & Authorization to Obtain and Disclose Information

Although there are no questions in these sections, the Proposed Insured and Owner (if other than the Proposed Insured) should review the agreements and authorization before signing the application.

Section 13: Signature Section

After the application has been reviewed, the Proposed Insured and Owner (if the Owner is other than the Proposed Insured), must each sign in this section of the application.

The Proposed Insured must sign the "Proposed Insured" signature line. If the Owner is other than the Proposed Insured, then the Owner must sign the "Owner" signature line. No one else can sign on behalf of the Proposed Insured or Owner.

All signatures should include both the first and last name; signing with initials is not acceptable. Signatures by Powers of Attorney are also not acceptable.

Section 14: Producer Certification

The producer must answer the replacement question in this section and provide their producer details. The Producer Certification must also be signed by the producer.

Other Forms

Notices Page and Acknowledgement of First Premium

The Notices page states Foresters privacy policy, underwriting process and information on MIB, Inc. (MIB). The Notices page section must be left with the Proposed Insured, regardless whether or not the application is to be processed.

The Acknowledgement of First Premium must be completed and signed by the producer, detached, and left with the Owner. However, if the application is "withdrawn", no premium should be accepted and the Acknowledgement of First Premium section should not be left with the Owner.

Note that on PlanRight there is no temporary insurance coverage; a conditional receipt is only provided in New York, and only if a check is submitted with the application.

Accelerated Death Benefit Rider (For Terminal Illness) Disclosure

For PlanRight Preferred and Standard, it's a regulatory requirement that an ABR disclosure must be given to all clients. You must leave the disclosure with the Owner at the point-of-sale.

Producer Report

The Producer Report must be completed and submitted to Foresters. Remember to:

- Record the personal health interview (PHI) Inspection Reference ID number that you received from Apptical. If a PHI reference ID number is not included in the Producer Report, the application cannot be processed.
- Include any special instructions in the Remarks section (if the application is not to be processed, include a note that the application is to be withdrawn).

Split commissions between two producers are acceptable from 1% to 99%. To request a producer split, complete question #12 on the Producer Report.

Please do not use the Producer Report to provide medical information. If the Proposed Insured is taking a dual use medication, please complete Section 10 "Additional Information" on the application.

Contingent Owner/Other Payer I.D. Form

This form must be completed if the payer is someone other than the Proposed Insured or Owner.

Replacement Forms

State regulations require that all applicable replacement related forms be completed at the time that the application is taken, and submitted with the application. PlanRight cannot accommodate 1035 Exchanges.

The Point-of-Sale Process

Introduction

Foresters uses a Point-of-Sale (POS) process to provide a medical eligibility decision while you are with the Proposed Insured. The process involves:

- an MIB, Inc. check
- a prescription history check
- a build chart review, and;
- a Personal Health Interview (PHI)

The medical eligibility decision is derived from the results of the above along with the answers to the medical questions and the coverage applied for.

MIB Check

MIB, Inc. (MIB) is a membership corporation owned by Member life insurance companies in the United States and Canada.

MIB maintains a database for its members to exchange confidential information of underwriting significance when an individual applies for life, health, disability income, long-term care or critical illness insurance. This information is maintained and safeguarded in a coded format that is accessible only to authorized persons on behalf of a Member company to which the Proposed Insured has applied for insurance and have authorized the company to use MIB as an information source.

During the underwriting process, the application information provided by the Proposed Insured is reviewed and compared to what is in the Proposed Insured's MIB file. The information in the Proposed Insured's MIB file is used only as an alert. No underwriting decision can be made on the basis of a coded report.

By law, the Proposed Insured can request free disclosure of his or her consumer report once annually. Only the Proposed Insured can request an MIB file for themselves. The Proposed Insured should call MIB's toll-free telephone number 866-692-6901 (TTY 866-346-3642 for hearing impaired) to request disclosure of their file. They will be asked for some personal identifying information so that the record can be located, if one exists. During this recorded call, they will need to certify, under penalty of law, that the information provided is accurate, and that he or she is the person requesting disclosure. The personal identifying information that MIB collects is used only to locate the Proposed Insured's MIB record, if any, and for no other purpose. MIB safeguards this information and keeps it confidential.

Prescription History Check

Foresters uses Milliman Intelliscript (Milliman) to conduct a prescription history check. Milliman is a service that gathers data from various prescription data bases and creates a profile of the Proposed Insured based on their prescription history. The profile includes detailed drug information, prescribing physicians, drug indications, and pharmacy information.

In instances where there is no Milliman prescription history, Foresters will use ExamOne ScriptCheck (ExamOne) to conduct a secondary prescription history check. ExamOne is another service that also gathers data from various prescription data bases and creates a profile of the Proposed Insured based on their prescription history. The profile includes detailed drug information, prescribing physicians, drug indications, and pharmacy information.

The Proposed Insured may obtain a copy of their prescription history report at no cost by contacting either Milliman or ExamOne. The Proposed Insured also has the right to dispute any information contained in their report with Milliman or ExamOne. To order a report, the Purposed Insured may contact:

Milliman

- in writing at 15800 Bluemound Road, Suite 100, Brookfield, WI 53005,
- by telephone at (877) 211-4816
- by e-mail at IntelliScriptSupport@milliman.com.

ExamOne

- in writing at ScriptCheck Compliance, ExamOne, 10101 Renner Boulevard, Lenexa, KS 66219
- by telephone at (844) 225-8047
- by e-mail at ScriptCheckCompliance@Examone.com

To determine which company was used to run the prescription history check, please contact our Producer Support Line (see "Access to your Business and Inquiries" for details).

Build Chart Review

As part of the POS process, the height and weight of the Proposed Insured is checked to ensure it is within Foresters height and weight guidelines. Insurance will be declined if the Proposed Insured is outside of the minimum or maximum weight for their height. Please refer to the "PlanRight Medical Reference Guide" for the Build Chart.

Personal Health Interview

The personal health interview (PHI) is conducted by Apptcal on behalf of Foresters. Apptcal offers interviews in English and Spanish.

The PHI must be conducted once the application has been completed and signed, and must occur within Apptcal's operating hours. Apptcal's toll-free number is 1-866-844-9276. Their hours of operation are:

- 8:30 am to 2:00 am ET, Monday to Friday
- 10:00 am to 10:00 pm ET, Saturday & Sunday

The PHI must also be completed in person while you are with the Proposed Insured.

The following is a general overview of what to expect during the PHI:

1. The interviewer will introduce themselves and ask what product your client is applying for (indicate PlanRight Preferred, Standard, or Basic), which medical questions (if any) that the Proposed Insured answered "yes" to, and the state the product is being sold in. You will be asked for the telephone number you're calling from, your name and your Foresters producer number to validate your POS eligibility. You will be informed that the call is being recorded and you will need to agree to the recording. The interviewer will provide you with a "PHI number" and you will be asked to record this in question #6 on the Producer Report.

2. The interviewer will verify the Proposed Insured's identification and personal information. You will then be asked to put the Proposed Insured on the phone.
3. The interviewer will inform the Proposed Insured that the call is being recorded and get their agreement to the recording. They will confirm that the application has been completed and signed.
4. The interviewer will verify some of the Proposed Insured's identification and Personal information and will obtain the Proposed Insured's authorization to run the prescription history and MIB check.
5. The interviewer will then confirm with the Proposed Insured that they've answered "no" to medical questions 1-6, 7-12, and 13-15. The interviewer will also confirm any "yes" answers in those questions (if applicable). The interviewer will not read out each question.
6. During this time, the MIB check and prescription history check will be run, along with a check of the Proposed Insured's height and weight.
7. Once completed the interviewer will ask the Proposed Insured to put you back on the phone. The interviewer will give you the eligibility results of the case.

If a change is required to an answer in the application, ensure the change is initiated by you, the Proposed Insured and the Owner (if other than the Proposed Insured). Changes may include changes to a medical question, benefit applied for, insurance premium, or face amount changes.

Once a change has been made and initialed, you must also complete and have each person sign a new page 5 (signature page) with a current date and note on the Producer Report that you have completed a new page 3.

The Eligibility Results

The Point-of-Sale (POS) decision engine provides the eligibility results, based on Foresters underwriting rules.

The Apptical interviewer is giving you the results from the decision engine based on Foresters underwriting rules; they cannot change the output based on your comments. However they will record your comments for Foresters. The medical eligibility results may change based on:

- an MIB record, and/or;
- the prescription history, and/or;
- the height/weight of the Proposed Insured

A changed answered during the PHI may also affect the eligibility results.

In situations where there are no discrepancies in the coverage applied for and the eligibility results, you will be informed as follows:

"The Proposed Insured is medically eligible to apply for the Preferred/Standard/Basic death benefit."

In situations where there is a discrepancy between the coverage applied for and the eligibility results based upon the prescription history check, you will be informed as follows:

"The proposed insured is eligible to apply for the standard/basic death benefit. Prescription(s) found consistent with (medical condition)."

If the prescription history pertains to any of the medical questions 1-6, the interviewer will inform you that the Proposed Insured is not eligible to apply for any PlanRight benefit. You must write "withdrawn" in the "remarks" section of the producer report and submit the application.

If there is a step-down in eligibility as the result of prescription history, in most scenarios Apptical will not be able to provide you with the specific drug information. If you require this information, you can contact Foresters New Business at 1-866-466-7166, option 2, and a Case Manager will be able to provide the information to you.

In situations where there is a discrepancy between the coverage applied for and the eligibility results based upon the MIB check, the Interviewer will request to speak with the Proposed Insured and will ask the corresponding question again. If the Proposed Insured then changes their answer (to "yes"), the Apptical interviewer will update the answer and will tell you the death benefit the Proposed Insured is eligible to apply for (Standard, Basic, or not eligible, depending upon the question).

Record the change, along with any required plan, face amount or premium change. Ensure all changes are initiated by all parties to the application and a new signature page (page 5) is completed and signed with a current date before submitting the application.

If the Proposed Insured does not change their answer, you will be informed as follows:

"The decision on this case is suspended due to an MIB record that our investigation has failed to resolve. The application must be sent to Foresters for formal processing. They will contact you with information on how to proceed."

In this situation, the Proposed Insured will be advised by Foresters how they can contact MIB to obtain their disclosure. Should the Proposed Insured contact MIB, they will receive a copy of their MIB Disclosure along with instructions on how to dispute any discrepancy.

In situations where the Proposed Insured is not eligible (due to either a 'yes' answer in questions 1-6 of the Medical Questions or their prescription history), you will be informed of the following:

"The Proposed Insured is not eligible to apply for Foresters PlanRight. Please send the application to Foresters for formal processing. They will send a letter to your client with the official underwriting decision."

The medical eligibility result you receive from the POS process is final. If the Proposed Insured does not qualify for the coverage as applied for or does not want to apply for alternative coverage, please note on the Producer Report that the application is being submitted as "withdrawn".

Regardless of the eligibility results, it is important that you submit all applications within 10 business days; Foresters requires a record of the Proposed Insured's signature authorizing the MIB and prescription history checks.

Once a PHI has been initiated, failure to submit an application within 10 business days may jeopardize your privileges for selling PlanRight.

If there is a step-down in eligibility due a dual use drug, ensure that you have completed Section 10 "Additional Information" of the application. The application will be reviewed by an Underwriter who will determine the final eligibility.

Submission Process

Submitting the Application In Good Order

In order to ensure your application is submitted In Good Order (IGO), please review each application to make sure the following have been done before submitting the application:

- All application questions are answered, and all of the sections have been completed in full.
- All pages of the application are included with your submission.
- Ensure that the answers provided on the application are consistent with the outcome of the personal health interview (PHI). Any changes that occur during the PHI should be initiated by all parties, and a new signature page (page 5) should be completed and signed with a current date.
- All forms and application pages are for the correct state.
- All state required disclosure forms are included.
- The Producer Report is complete, and if the commission is to be shared, the split must equal 100%.

Submitting the Application to Foresters

Check with your agency as to the submission process you should follow as some agencies and distribution partners want the applications sent to their clearing centers first.

By SecureDocs
<http://foresters.securedox.ca>

By Fax
1-866-300-3830 or 1-877-664-6602

By Regular Mail
P.O. Box 179
Buffalo NY 14201

By Courier
Check the Foresters producer website for information on sending applications by courier.

For SecureDocs, a confirmation that your document was sent successfully will be displayed upon submission. Make a note of the tracking number for your reference. For information on how to use SecureDocs, please reference the "SecureDocs User Guide".

For faxed applications, Foresters will reply confirming the number of pages received within one business day of receipt. If confirmation is not received within one business day, call Foresters Producer Support Line. Keep the confirmation message for your records.

Service Levels

In Good Order and Not In Good Order

The simplified application, the Point-of-Sale (POS) process and eligibility decision, and the submission process have been designed to provide speed to issue for both you and your clients.

Applications that are In Good Order (IGO) are typically issued within two business days from the date received at Foresters.

Delays in submitting the application, or applications that are submitted Not in Good Order (NIGO) will impact the two business day service level.

Some reasons an application may be considered NIGO include:

- Payment Information section was incomplete, missing information, had incorrect banking information, or was not signed
- Replacement form (if applicable) was incomplete, missing information, or was not submitted
- sections of the application were incomplete or missing information
- missing signatures
- Producer Certification was not completed or not signed
- premium check was either post-dated after the application date or was not made payable to Foresters
- the initial premium check was not submitted
- premium amount did not match the coverage applied for
- Personal health interview (PHI) number is missing from the Producer Report
- Other state specific or product specific forms were incomplete, missing information, or were not submitted

If any of the these situations occur, Foresters will notify the producer as to the outlining reasons why the application is NIGO, what is outstanding, as well as the due date for the requirement(s).

Certificate Delivery

Certificates will be mailed directly to the certificate Owner unless producer delivery is requested or required.

Important Dates

Application Date

Applications must be dated the day the application is completed and signed by the Proposed Insured and the personal health interview (PHI) is completed. Applications should not be dated the day it is sent to Foresters, nor the date the insurance is to become effective.

Application Date

All applications that have a decision and are issued by Wednesday at 5:00 pm EST will be considered for the current compensation cycle, which is paid on Fridays.

Certificate Effective Date

The certificate comes into effect on the certificate issue date when the first premium has been provided and honored when presented for payment, and there have been no changes in the Proposed Insured's insurability between the date the application is signed and the certificate issue date.

Backdating of the certificate issue date is allowed as long as the backdating isn't to qualify for a specific plan or coverage and is within any state specific rules (if applicable).

Bank Draft Date

A premium will be drafted on the same day of each month to coincide with the certificate issue date. If a specific draft date has been selected, please ensure that the day has been specified, either 1st through to the 28th, or the 1st to the 4th day of the week (Monday to Friday). Requests for either a draft date or certificate issue date of the 29th, 30th or 31st of the month will not be honored.

A specific pre-authorized check (PAC) draft date can be requested, however the draft date cannot be greater than 45 days from the date of the Apptical interview.

General Information

Non-English Speaking Applicants

Foresters only allows teleinterviews in English or Spanish; Apptical offers teleinterviews in both languages.

Translation Services

Foresters will allow the producer, or a third party to serve as the translator [for Spanish or French only](#). You will need to indicate the following on the Producer Report:

- that you or the third party translator are fluent in Spanish or French
- the teleinterview was conducted in Spanish or French
- that the application, accompanying forms, and product information have been accurately translated by you or the third party translator
- that you emphasized to the Proposed Insured and/or Owner that the insurance contract and all other documents, and all communications with the home office regarding these certificates, will be in English, and it will be their responsibility to obtain translation assistance when requesting service for their certificate.

The proposed beneficiary or Proposed Owner cannot be the translator. The translator must be on the call and must be clearly heard translating any questions and responses.

To assist in accurately translating the medical questions, Foresters has provided a translation of the medical questions in both Spanish and French. These are available on ezbiz.

Video Relay Services

Foresters offers Apptical teleinterviews through Video Relay Service (VRS) for PlanRight customers who are deaf, hard-of-hearing, or speech-impaired.

The process is simple:

- Before you contact Apptical, ensure that your client is ready to enable and receive the VRS.
- During the teleinterview, inform the Apptical interviewer that you'll be requiring a translation using VRS.
- You will need to provide Apptical with:
 - your client's 10 digit relay number
 - the VRS provider's toll-free number for hearing callers
- At the client interview portion of the call, Apptical will conference in your client's VRS provider.
- Once the VRS has been established between your client and the VRS provider, Apptical will conduct the interview with your client.
- The VRS interpreter will translate the questions to American Sign Language (ASL) and relay to your client.
- Your client's responses and answers will be translated by the VRS interpreter and relayed back to Apptical.
- Once the client portion of the interview has been completed, the VRS will be disconnected.
- Apptical will convey the decision directly to you.

Your client must already have a 10 digit relay number through a VRS provider; they cannot use a friend or family member.

Multiple Certificates

More than one PlanRight application can be written on the Proposed Insured, provided details regarding the need for more than one certificate are given. Each certificate must adhere to our product guidelines and the total face amount for all PlanRight certificates cannot exceed \$35,000 (depending on the plan and age).

Multiple Family Members

If a single Pre-Authorized Check (PAC) debit is being made from the same account for multiple applications, a cover letter with instructions regarding the PAC debit should be submitted with the applications. Instructions in the "Remarks" section of the Producer Report are also acceptable. The Payment Information section must still be completed on each application.

Canceled Applications

An application will be cancelled if the Proposed Insured had 2 Foresters certificates within the previous 12 months, or had 3 or more Foresters certificates since 2009, which have:

- lapsed
- been not taken
- surrendered
- cancelled

The application will also be cancelled if:

- the writing producer is not licensed to solicit business in the state of solicitation
- an incorrect state application version is used
- a personal health interview (PHI) was not completed
- if the PHI is more than 45 days old

Certificate Cancellation and Requests for Refunds

If the Owner requests a cancellation during the certificate's free look period, the Owner can mail the certificate to Foresters U.S. mailing address, or by returning it to a Foresters authorized representative. The Owner should indicate and sign the request for cancellation either on the certificate or in a covering letter.

All other requests for cancellation must be in writing (signed and dated) and submitted by the certificate Owner; telephone requests are not acceptable. Notification acknowledging the request will be sent to the certificate Owner and producer. Cancellations and refunds will be processed within 10 days from the date the request was received by us.

Reinstatements

A new certificate will not be allowed if the initial certificate was issued within the last 60 days and it has lapsed. In this situation, the only option for coverage is to have the original certificate reinstated. All reinstatements require a completed reinstatement application. Other requirements may apply to reinstate the certificate.

Underwriting Class Change

Once issued, an Insured cannot change their underwriting class from tobacco to non-tobacco.

Key Contact Information

Sales Support

We answer your call...with a live voice. Foresters Sales Support Team is your first, direct, live point-of-contact for all of your pre-sales needs! Our informed professionals pick up when you call, and provide the friendly assistance you need.

We are here for you! Call us at 1-866-466-7166 Option #1, Monday to Friday from 8:30 am to 7:00 pm EST. Our knowledgeable Foresters sales team is standing by to support your business with:

- A "live voice" to answer all of your Foresters questions
- Sales ideas and solutions
- Foresters product training
- Illustration software and website support
- Advanced marketing concepts, materials and education
- A Single Point-of-Contact with Foresters

Access to Your Business and Inquiries

Do you need to inquire about business you have recently submitted, or an existing inforce certificate? Visit our producer website (at foresters.com) for quick and easy 24 hour self-service options. Should you require additional assistance, please contact our Producer Support Line at 1-866-466-7166 Option #2 between Monday to Friday 8:00 am to 8:00 pm EST.

Marketing Support

Visit our producer website (foresters.com) for forms and marketing collateral. Here you will have the ability to download and/or order Foresters Sales Aids, which include: applications, product guides, consumer brochures, rate sheets, and advertising templates.

Up to a maximum of 50 forms can be ordered at a time. If you need to order more than the maximum allowed, please contact Sales Support to place your order.

Supporting Material

The following materials can be found on ezbiz:

PlanRight Medical Reference Guide

This guide contains:

- definitions of the conditions contained in the medical questions section of the PlanRight application.
- a medical reference chart, outlining prescription medications and the effect on the death benefit type.
- the Build Chart.

Beneficiary 101

This Advanced Planning piece provides guidance as to who is considered an acceptable fraternal beneficiary.

SecureDocs User Guide

This guide will help you in creating your SecureDocs profile, activating your account, and sending documents to Foresters.
